Why a Faith Breakfast?

Faith leaders hold a unique role in guiding their congregations.

Wake County SmartStart (WCSS) seeks to support that role by providing faith leaders educational information about early childhood development and effective strategies to support young families. The breakfast allows for leadership from across different faiths to share ideas and discuss common challenges to serving young families.

Who should attend?

The event is designed for senior leadership from places of worship.

How can our place of worship learn more about Wake County SmartStart?

WCSS works to ensure that children birth to five are prepared for success in school and in life. To carry out that mission, the agency funds programs that reach all of Wake County. Programs focus on supporting families, their young children and the classrooms that serve them. To learn more visit www.wakesmartstart.org and click on the Community Portal then link to Faith Communities.
